Thank you blake, the awesome job is still going on =)

Look at dat, the first "Indomitable Survivor" title in the game, that's my small dedication to those who were dying in Thunderhead Keep & on the last levels, you're avenged

Not to say it's something special these days, but I've been asked by a few players to post an update to the screenshot series presented above, showing the last rank of my Survivor title. So ok, here we go, starting from completion of the last bonus where we actually went to pwn the Lich for one more time, to prolong the fun & keep IZO (the best master of aggro in the whole Russian community) happy and ending with awesome pictures from The Dragon Festival where I was allowed to die without getting a death, I think it's nice, isn't it? =) The credit for completing the last two Prophecies bonuses goes to my friends from Soldiers of Thunderstorm alliance: Joe Free Wind [RusI] (aka IZO), Dunkan Aidaho [RusI], Vax Z [RUS] (New Russian Order guild), Third Day With Me [RUS], Voice of Voodoo [RusI] & Amun Khealer [SoT]. An additional ***thank you*** goes to a very skillful pickup group with whom I've managed to complete Dunes of Despair, The Dragon's Lair, Ice Caves of Sorrow, Iron Mines of Moladune, Thunderhead Keep and Ring of Fire bonuses, you guys are truly outstanding at PvE and definitely deserve a credit: Calindur Oltian, Barely Able [KTA], John Darkwolf [GZL], Rosa Alchemica [GZL], Warlord Daciel [DTM], Doctor Jason [SoS] & Hallha Akne [RED]. I don't know whether I'll try to pass the Canthan missions with 0 deaths or not, but this is something I'll be looking at in the future, so you might expect an update to that thread. And for now, I invite you to enjoy this...

That's an interesting question in the light that killing a Lich triggers the cinematic, but I don't really remember. However, soloing him with an Ele is a cool idea, it surely will work for real. I remember beating this mission by fighting the three Titan groups near the portals with only 3 Eles (including myself) and 2 Healer henchies.

Big deal, you're a wammo. You take less damage from everything than anything else in the game.

EDIT: I just noticed from the screenshots that you dont actually do anything, you just send people in to do the work for you. I wouldn't be surprised if you got powerleveled for 90% of it. Whats the big deal about that if you're not actually fighting or contributing to your groups? Anyone can be a pansy and sit back not doing shit for hours on end until they rack up 1,337,500 exp.

I have 6 slots so I can't even make a character to do that without getting powerleveled and without getting babied. I never even knew the survivor title existed until after I got it with my assassin, but he had died 2 times already when I noticed.

Going to have to wait for more slots before I can make a new character and shoot for it. Not that I care anyway, I don't need to prove to people I can play without dying.
